

RE: REACH Compliance

January 1, 2016

To Whom It May Concern:

This statement is meant to serve as formal notification, for distributors, resellers and end users, regarding our status in the above matter.

Chemyx, Inc., is a supplier of of electronic hardware to a subset of our customers located in the EU. We are therefore considered a “distributor” of “articles” under the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (the “REACH Regulation”). Accordingly, Chemyx is not obligated to register with the European Chemicals Agency (ECHA) pursuant to the Reach Regulation.

Additionally, Chemyx does not manufacture or supply “substances” or “preparations” and our articles do not involve the “intentional release of substances” under normal and reasonably foreseeable circumstances of application. Therefore, we foresee no registration or pre-registration requirement for the products we supply to our customers.

To our best knowledge and belief as of the date of this letter, the products distributed by Chemyx do not contain any of the substances in the SVHC candidate list above the permitted concentrations set forth in the REACH Regulation. We are committed to comply in every respect with the REACH Regulation and any relevant amendments, and should any supplier inform us about any change in the composition of raw materials included in the products distributed by Chemyx, as such change may relate to the content of SVHC in such materials, we will immediately notify our customers.

Feel free to contact us with questions or concerns.

Kind Regards,

Jeff Wu
Senior Engineer
Chemyx, Inc.
